Re: Walton's Farm Administrative Consent Order

Dear Mr. Komorowski:

I have enclosed another version of the proposed Administrative Consent Order on the above-referenced site. In generating this draft, your comments were considered and a number of them have been incorporated.

As I mentioned to you during a recent phone conversation, a restructuring of the Order was necessary in order to consider the results of pre-removal sampling prior to approving a removal plan. This accounts for the bulk of the substance added to the original Order sent to you. The other major change relates to the section addressing cost reimbursement, which has been modified in light of recent internal EPA policy changes.

I will be happy to discuss any of the provisions of the Order with you at a mutually convenient time. Please contact me at (212) 264-8925.

Very truly yours,

Patricia C. Hick
Assistant Regional Counsel
